About Us

W2W Partners, Inc., is a certified Women-Owned Small Business, that offers innovative and sustainable restroom solutions with a focus on high-quality feminine hygiene products and dispensers. Proudly made in the USA, our products meet FDA and ADA standards. We prioritize affordability, ease of access, maintenance, and sustainability, making us a reliable partner for agencies seeking to enhance their restroom amenities while supporting environmentally responsible practices.

Core Capabilities

High-Quality Period Products

W2W Partners, Inc. offers premium period product solutions designed to meet the specific needs of public facilities. Our ultra-thin pads with wings feature an organic cotton top sheet and our organic cotton tampon with plant-based applicator, ensures safety and comfort. Available in both boxed and bulk options, our products are free from harmful chemicals, dyes, and fragrances, aligning with public health standards and environmental regulations.

Optimized Logistics & Operations

We have a proven track record of efficiently servicing large-scale government size locations with precision and reliability. Our global supply chain management capabilities include diverse distribution channels—such as shipping containers, OTR, air, intermodal, rail, and LTL shipments—ensuring timely and cost-effective delivery. We are experienced in navigating various sectors, including corporate, retail, K-12, higher education, non-profits, and disaster relief.

Innovative & Cost-Efficient Dispensing Solution

Our dispensing solutions are engineered for operational efficiency, providing equitable access to essential period products in every restroom. The dispensers are low-cost, low-profile, and quick to install, taking just 30 seconds to set up and 10 seconds to refill. Each dispenser is backed by a lifetime warranty, ensuring long-term reliability and reduced maintenance costs for government facilities.

Sustainable Sourcing & Practices

W2W Partners, Inc. is committed to sustainability. Our dispensers and pads are proudly made in the USA, while our tampons are manufactured in Europe to the highest standards. All bathroom dispensers are 100% recyclable, and our period products are crafted from certified organic cotton with minimal packaging to reduce waste, supporting government initiatives for environmentally responsible procurement.
